SUBJECTS OF INTERESTS:

- DevOps
- Cloud Computing

HANDS ON EXPERIENCE:

- Completed 10 months internship in the field of DevOps from **NOKIA INDIA Pvt. Ltd.**
- Docker
- Kubernetes
- Jenkins (CI/CD)
- Git

PROJECTS / TRAINING, DEVELOPMENT AND RESEARCH:

- 1) **J Project (Storing Data on cloud):** I created an android application which stores user input data inside that application on firebase (cloud) account. I also added a retrieval data feature, it is useful in case of confusion about entered data. Basically the main motive was to store data on the cloud so I didn't use java/kotlin to create android applications.

- Platform : Thunkable

- 2) **J Project (Operating System):** Lamport logical clock implementation

- Platform : C

- 3) **RBL (Research Based learning):** Dynamic malware Analysis in Android Application.

- Platform : Burp Suite

EXTRACURRICULAR ACTIVITIES & HOBBIES:

Playing with technical gadgets.

Always ready to face & fix new issues in technical life
